

This goes way beyond telling time.

With Timeclock, Data Business Systems can give you and your district a convenient and powerful interface, to administer all of your district's scheduling and time records from a single system.

Timeclock

Your district's scheduling solution.

Timeclock's interface is available from any connected computer in your district. Updates are a snap. You can record and manage multiple classifications of employee. Take a look inside to read about even more ways Timeclock can work for you.

We can't wait to work with you.

Visit us online at www.databusys.com/Timeclock.

Whether you'd like to schedule a demo, or just get a question answered, we'd be happy to hear from you.

Contact the DBS Sales Department by e-mail at sales@databusys.com or by phone at (855) 210-8232 ext. 4

Manage Time Off

Every school district has to keep track of multiple schedules...and the bigger the district, the more complex the need. We can help, by providing you with a solution that covers all of the bases.

Your district's
scheduling solution.

Benefits to Your District

Timeclock uses a touch-screen interface, letting your staff members bypass complicated instructions and enter information quickly and easily.

Your data is safe: Timeclock runs off of a secure Website. Credentials are needed to log in, and we offer an auto-logout feature if you need it.

Timeclock is accessible from anywhere in your district, and can be easily updated by you or your staff.

Always keep track of your staff's needs.

Timeclock is capable of handling many different types of staff and district assignments: administrative staff, full-time faculty, substitute teachers, temporary staff, and more. You can classify individuals with different job codes, and assign them to a supervisor.

With the ability to interpret and process different types of data, Timeclock gives you greater flexibility in managing workflows between different interfaces. Your payroll system's data can be imported to Timeclock, interpreted, applied, and used in an online or offline report. Online reports are visible to anyone with credentials in the district, and offline reports are generated according to common file types.

We'd love to tell you more. Contact DBS Sales at sales@databusys.com, or at (855) 210-8232, ext 4, to schedule a personalized demonstration.
