

HEALTH-E MEAL PLANNER PRO SUITE

We believe planning delicious, healthy meals should be simple! The Health-e Meal Planner Pro was designed with you in mind. This easy to learn, user-friendly software knows all the rules and gives you feedback all the way to a compliant menu. Integrated production records make record keeping a breeze. When it's time for a review, just a few clicks in our EZ Administrative Review report gives you everything you need for a successful review. You'll have peace of mind knowing your menus are compliant.

The Health-e Meal Planner Pro is USDA Approved software.

Save Time. Save Money. Stay Compliant.

Be proactive and share your district's healthy menus with the public! Publish your district's menu to the web and your mobile app with just one click from the Health-e Meal Planner Pro. Interactive menus include nutrient facts labels, a nutrient calculator, allergens filter and conversion to any language are just some of the features in My School Menus. Customize graphics and add links to suit your needs. Users can print menus themselves saving you time and money. This works seamlessly with the Health-e Meal Planner Pro so no more moving data from your menu planning software to some other application. It doesn't get any easier than this!

Take a step up on the web with a Health-e Living Nutrition Website! This colorful and informative website template has customizable features to fit your needs. Add links to your meal applications, prepayment systems and other relevant tools and information. Healthy living principles are updated seasonally to keep your site fresh and up-to-date.
