

➤ The **intelligence**
behind every **nutrition**
services inventory

Attention K-12 food service directors!

PaySchools BackOffice doesn't just manage your inventory—it automates it.

It's like having a whip-smart assistant focused on nothing but optimizing your supply chain.

BackOffice is the inventory solution you've been waiting for.

PaySchools BackOffice automates it all.

K-12 food service inventory management is a complex task.

Fortunately, PaySchools BackOffice is up to the challenge.

This cloud-based software handles ordering, receiving, and truck routing—plus lot and bin management.

- View items on hand and on order
- Review discrepancies by school
- Compare item usage
- Auto-generate orders
- Create audit trails
- Monitor storage and expiration dates
- Pull picklists
- Manage logistics
- Generate reporting

And with Health-e Pro menu-planning tools integrated, you'll have a truly comprehensive nutrition services suite.

Plan menus, manage inventory, feed students, and repeat. BackOffice is the **missing link that automates** the entire cycle.

To talk to a representative or schedule a customized demo, please call PaySchools at **855.210.8232, opt. 4**, or email **sales@payschools.com**.
