

PAYSCHOOLS VENDING BY THE NUMBERS

97% of schools end up paying for the machines with net profits **in less than 2 years.**

Plus, vending machines are available **LEASE-TO-OWN**. With this option, there is no downpayment, making fast integration feasible for most districts. And annual lease cancellation privileges mean you can opt out at any time.

Typically **70-80%** of vending-machine sales are paid for with integrated lunch accounts.

Average sales per student range from **\$35-\$65** annually.

Overall, nutrition services departments see an average **30% increase** in vending revenues over their old vending systems.

30%

In 14 years, the integrated vending program has been so successful that less than 1 percent of customers have opted to discontinue.
